

# Tambour Needles for Embroidery | Tambour Needles for Crafts & Embroidery

Noida, India

Tambour needles are famous for French luneville embroidery work. You can use them for thread, sequins, metallic wire and bead embroidery. Usually tambour needle set comes with wooden handle and different size of steel needles. The thickness of needle starts from 0.9MM and it goes up to 2MM. According to your design, you can interchange the needle on the handle. Now, even metal handle is also available with tambour needle. Whenever you are buying it the most important point is that the needle shouldnt move after adjusting on the handle, if it moves then it will be impossible to use for any kind of embroidery.
