

Pacorr Testing Instruments

T- 1/206, Gulmohar Enclave, Rakesh Marg, Ghaziabad, Uttar Pradesh, Pin Code- 201001
28.6572771, 77.3505429

Pacorr Testing Instruments Pvt Ltd has an exquisite range of laboratory testing instruments and machines that are able to cater the quality testing needs of a vast range of industries and production verticals.

Product Range

- Bursting strength tester digital manufacturers and suppliers provide a magnificent testing instrument that is a must have testing instrument for many industries such as textiles, paper and packaging.
- Box Compression Tester Digital manufacturers and suppliers manufacture a widely used instrument in the packaging industry to test the strength and quality of the packaging containers such as cardboard boxes and corrugated boxes.
- Scuff Resistance Tester offered by Pacorr is the instrument that is used for testing the impact of rubbing on materials when they are rubbed against each other. In different industries, the packages are stored in a very sturdy manner.
- Edge Crush Tester / RCT / ECT / FCT Digital Model is one of the most efficient testing instruments that are used in different industries to test the strength and sturdiness of various materials.
- Salt Spray Tester/ Corrosion Test Chamber manufacturers and suppliers offer a very accurate and efficient testing instrument that is very useful for studying the impact of environmental factors on the materials when they are subjected to such environments during their usage.
- Tensile testing machine digital manufacturers and suppliers have been offering high precision testing instrument or different industries to test the tensile strength of different materials.
- Peel / Seal / Bond and Adhesion Strength Tester manufacturers and suppliers offer the best precision testing instrument that is used in the industries such as plastic and packaging industries.
- Pacorr offers the most accurate colour matching cabinet that are a must have for any industry that deals with colour and colour matching. The colour of a product is one of the most important aspects of its properties. The colour has a great impact on the perception of the quality of the products.
- Melt Flow Index Tester manufacturers and suppliers design one of the most accurate machines that is used for measuring the melt flow of a polymeric material. In the world of polymers, there are different parameters set to define their quality and features.
- Pacorr's Coefficient of Friction Tester is one of the best testing instruments for testing the coefficient of friction of packaging materials such as labels and tapes.
- Vacuum Leak Tester Digital manufacturers and suppliers offer a very useful instrument for quality control in packaging industry. Packaging materials such as plastic bags, bottles etc. are extensively used in many industries for packaging of different types of products.
- Pacorr offers one of the most sophisticated and accurate Torque Tester digital that is used in a variety of industries for quality control of different types packaging containers.
- Portable Spectrophotometer that is offered by Pacorr is one of the best instruments to test the colour quality of different products. The quality of different products depends greatly on the colour

quality and quality. Pacorr's precision wall thickness gauge digital is one of the best instruments that can be used for testing of thickness of packaging containers such as PET and plastic bottles. Bottle burst tester manufacturers and suppliers offer one of the most efficient testing equipment that is used in PET and bottling industries to test the quality and strength of the PET bottles. Looking for Top Load tester Digital Price? We are renowned manufacturer and supplier of wide range of highly precise Top Load tester Digital that helps various industries in ensuring the good quality of their products. Looking for Hot Wire Bottle Cutter Price? We are renowned manufacturer and supplier of wide range of highly precise Hot Wire Bottle Cutter that helps various industries in ensuring the good quality of their products.
